Dear PIWHA Member:

Attached is a letter directed to State Legislators outlining several important issues currently affecting the PIWHA membership. **We need your help.** It is very important to our cause for each member to e-mail, mail, or hand deliver this letter to your local State Senator and/or State Representative.

It is essential that we deliver a uniform message. Please, no matter which way you choose to contact your local State Legislator; do not add any additional information on any other subject.

Please ask your local State Senator and/or State Representative if they would be willing to assist PIWHA with this initiative. Our goal at this point is to make them aware of the issues and to determine if they are willing to work with us. If so, they will receive notice from Senator Tomlinson's office with regard to any planned meetings or other next steps to be taken.

You can find a link to who your local legislator is and also download a copy of this letter on our website, [www.piwha.com](http://www.piwha.com) under the resources link.

Please contact me via email at [gtrhummer1@verizon.net](mailto:gtrhummer1@verizon.net) if you have questions. Also, please send me an email with the names of the Legislators that you contact, the dates that the letter was delivered, and details with regard to any follow up correspondence that you receive.

Thank you.

Sincerely,

Gary T. Roberts, Executive Director
